

How to upload a video to YouTube

Step 1

<https://www.youtube.com/>

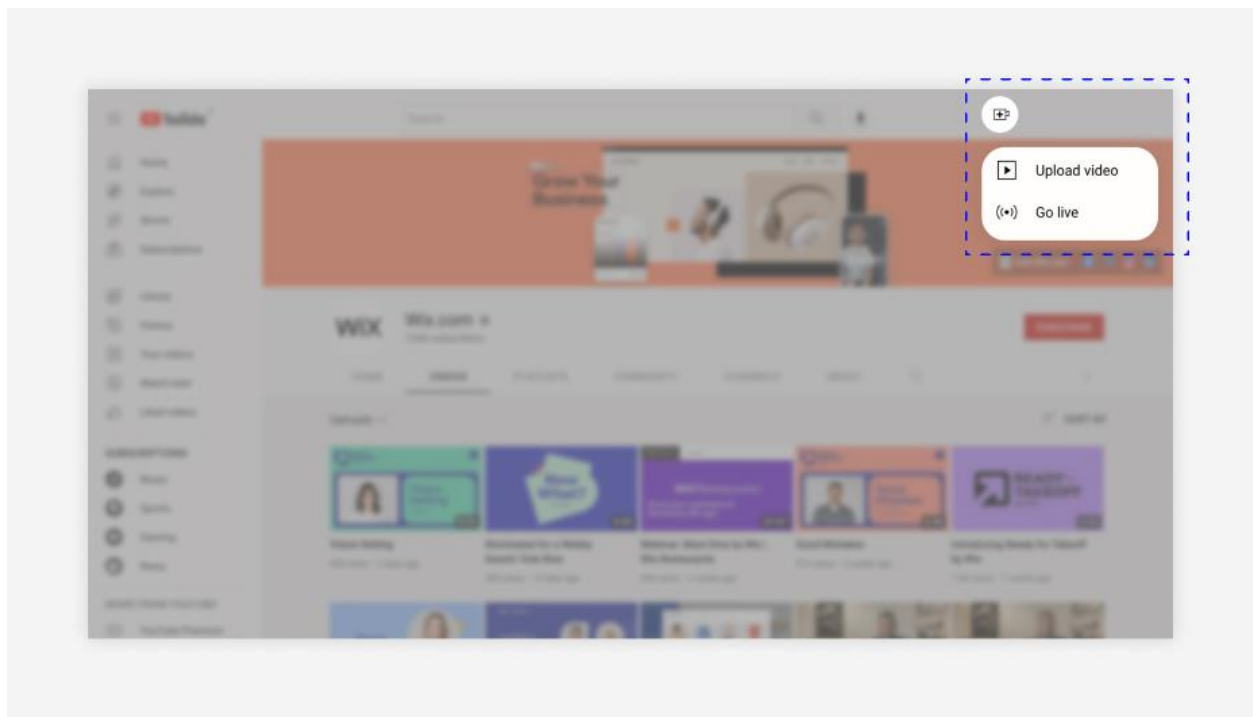

Username: longpracticeifcfff@fls@gmail.com

Password: fls@2022

Log in to your YouTube account.

Step 2

Click on the video icon at the top right-hand side of the window, which can be found next to your user icon, messages, apps and notifications.

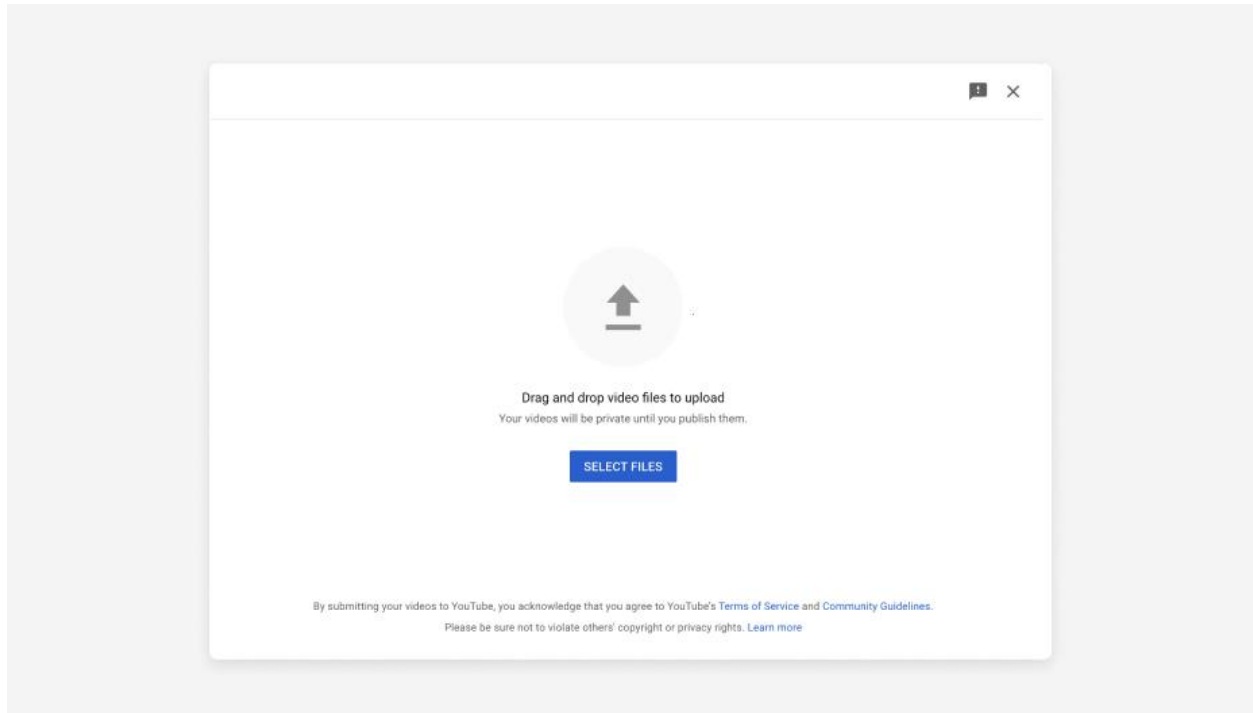

Step 3

Click 'Upload a Video.'

Step 4

Then, press 'Select files' to find the video file saved on your computer. Or, you can drag and drop it into the window.

Step 5

Now publish your video. You can also choose to post on a scheduled date.

Add the final details to your YouTube video

To ensure your video performs optimally, include details like privacy settings, thumbnail stills and SEO data.

Select your privacy settings

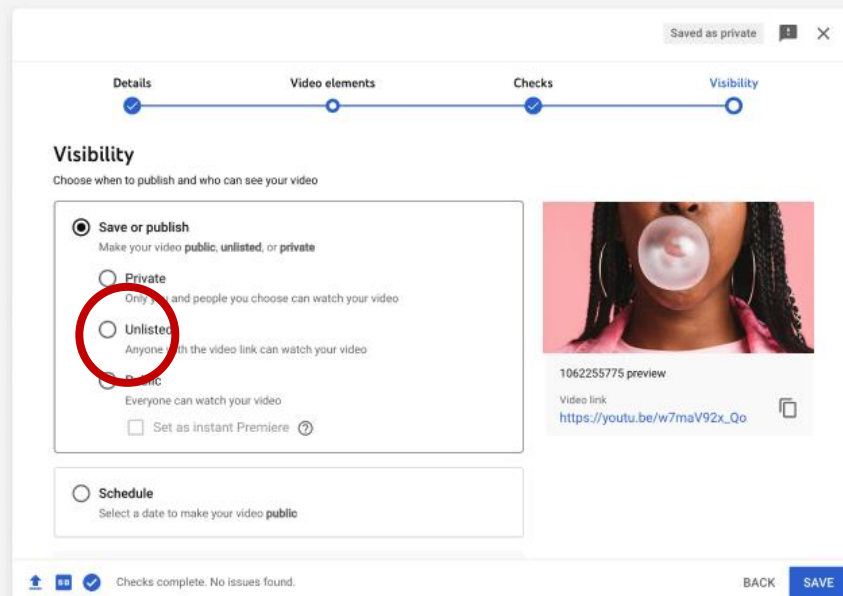

Privacy settings allow you to control who can and can't see your video. YouTube provides the following options in the uploading process:

- **Public:** Anyone can view your video and it will show up in YouTube search results. This is the standard setting and if you use YouTube to

market your business or expand your reach, you'll want to make your videos public.

- **Unlisted:** Unlisted videos are still public, but you'll need to provide people with a direct link to see the video. In addition, these videos won't appear in the YouTube search results or your video feed. For marketing purposes, you can use unlisted videos to promote exclusive deals or events.
- **Private:** Only you have viewing access.

Once you've selected your preferred option, click 'Save.'

The image shows the YouTube video visibility settings interface. At the top, there's a progress bar with four steps: Details, Video elements, Checks, and Visibility. The 'Visibility' step is currently active. Below the progress bar, the 'Visibility' section is titled 'Choose when to publish and who can see your video'. There are two main options: 'Save or publish' and 'Schedule'. Under 'Save or publish', there are three radio button options: 'Private' (selected), 'Unlisted' (circled in red), and 'Public'. The 'Unlisted' option is described as 'Anyone with the video link can watch your video'. To the right of these options is a video preview thumbnail showing a person blowing a bubble. Below the preview, it says '1062255775 preview' and 'Video link https://youtu.be/w7maV92x_Qo'. At the bottom of the 'Save or publish' section, there is a checkbox for 'Set as Instant Premiere'. Below the 'Save or publish' section is the 'Schedule' section, which is currently unselected. At the bottom of the interface, there is a status bar that says 'Checks complete. No issues found.' and buttons for 'BACK' and 'SAVE'.
